

Public Workshop #2

Your Input Matters

You are invited to the second Public Workshop regarding compatibility planning in the Northeast North Carolina Region

In order to develop a plan that is responsive to local needs, input from the community is essential.

Please join the JLUS development Team at this workshop to learn about the compatibility issues that have been identified to date, provide input on prioritizing these issues, and identify any issues not yet considered.

The workshop is part of the ongoing development of the JLUS to address compatibility planning between Seymour Johnson AFB, the Dare County Range, and impacted communities in the northeast North Carolina region.

The goal of the JLUS is to protect the viability of current and future missions at Seymour Johnson AFB and Dare County Range, while accommodating community growth, sustaining the economic health of the northeast North Carolina region and protecting public health, welfare and safety. The JLUS will assess 25 compatibility factors, identify existing and potential issues, and develop strategies to address the issues. The compatibility factors include, but are not limited to:

- Coordination and Communication
- Land Use
- Noise / Vibration from overflight
- Safety Zones
- Environmental Impacts
- Vertical Obstructions
- Roadway Capacity
- Energy Development

Save the Date

Please come and learn about the JLUS process and provide your input on the issues to be addressed. Workshops are being conducted in three locations for your convenience:

Goldsboro, NC

Date:

Tuesday,
May 17, 2016
